Pull request:	
Description when setting a discovery rule search filter, the timestamp fact is being suggested. e.g. "facts._timestamp"	

History

#1 - 01/18/2015 08:01 AM - Ohad Levy

- Project changed from Discovery to Foreman
- Subject changed from discovery rules show timefact search to autocompleter search on facts shows _timestamp fact
- Category deleted (Discovery plugin)

everywhere where using auto completer for facts (hosts, facts mail and permissions filters) allows to use the "_timestamp" fact.

I would either remove it from the DB or ensures that its not visible, its pretty annoying, as its always the first suggestion.
