Description

Trying to delete a host from Foreman, the logs show this:

App 34082 stderr: Delete PuppetCA certificates for testhost task failed with the following error: ERF12-7740

Here is my puppetca.yml, for foreman-proxy settings:

1. PuppetCA management
   :enabled: true
   :ssldir: /var/lib/puppet/ssl
   :puppetdir: /etc/puppet

```
:puppetca_use_sudo: "true"
:sudo_command: /usr/bin/sudo
```

This is a relatively fresh install of Foreman and Foreman-Proxy (running on the same host). To this point, I've not encountered any issues. This was a host that I wanted to test provisioning with, but decided to remove and re-add to address another issue (tftp not populating on "Build").
