Smart Proxy - Bug #9102

When trusted hosts is enabled, remote hosts cannot access templates

Description

The default is now :trusted_hosts setting enabled, but this limits which hosts can access provisioning templates. Perhaps some module setting like "allow_all" might be useful to let modules say whether trusted_hosts should be used or not?

The trusted_hosts helper is optional, the module is explicitly enabling it.

#2 - 01/26/2015 05:03 AM - Stephen Benjamin

Yea, I'll disable it in the Katello Capsule, but I'd prefer to leave it on for everything but the templates plugin.
