#### Description

test\_develop has failed to run integration tests on two of the three runs:

```
HostTest:::create new host page::NIC modal window::editing interfaces.test_0002_ok button updates overview table
```

```
Failed assertion, no message given. (test_0002_ok button updates overview table)
/var/lib/workspace/workspace/test_develop/database/postgresql/ruby/1.9.3/test/integration/host_test.rb:142
```

and

```
HostTest:::create new host page::NIC modal window::adding interfaces.test_0003_setting primary updates host name
```

```
Failed assertion, no message given. (test_0003_setting primary updates host name)
/var/lib/workspace/workspace/test_develop/database/postgresql/ruby/2.0.0/test/integration/host_test.rb:192
```

```
HostTest:::create new host page::NIC modal window::editing interfaces.test_0002_ok button updates overview table
```

```
Failed assertion, no message given. (test_0002_ok button updates overview table)
/var/lib/workspace/workspace/test_develop/database/postgresql/ruby/2.0.0/test/integration/host_test.rb:142
```

## #4 - 02/11/2015 09:51 AM - Dominic Cleal

We just had the following failure in a plugin test, seemingly at random

```
undefined method `find' for nil:NilClass (NoMethodError)
/var/lib/workspace/workspace/test_plugin/foreman/test/integration/host_test.rb:230:in `block (4 levels) in <cl
ass:HostTest>'
```

## #5 - 02/16/2015 03:48 AM - Dominic Cleal

The above comment was the "switch primary" test, also getting a lot of failures on "switch provisioning" below it.

Other common failures:

```
<3> expected but was
<2>. (test_0002_ok button adds new interface)
/var/lib/workspace/workspace/test_develop_pr_core/database/postgresql/ruby/2.0.0/test/integration/host_test.rb
:163
```

Firing a click at co-ordinates [848.5, 305] failed. Poltergeist detected another element with CSS selector 'ht  
ml.no-js body.modal-open div#main div#content.container form#new\_host.form-horizontal.well div.tab-content div  
#network.tab-pane.active fieldset#interfaces div#interfaceModal.modal.fade.in div.modal-dialog div.modal-conte  
nt div.modal-body fieldset#interface div.clearfix div.form-group span.help-block.help-inline' at this position  
. It may be overlapping the element you are trying to interact with. If you don't care about overlapping eleme  
nts, try using node.trigger('click'). (Capybara::Poltergeist::MouseEventFailed)
