

Foreman - Bug #9417

Impossible to see / clear root password from hostgroup

02/17/2015 12:28 PM - Bryan Kearney

Status: Duplicate	
Priority: Normal	
Assignee: Ohad Levy	
Category:	
Target version:	
Difficulty:	Fixed in Releases:
Triaged:	Found in Releases:
Bugzilla link: 1193310	Red Hat JIRA:
Pull request:	
Description	
Cloned from https://bugzilla.redhat.com/show_bug.cgi?id=1193310	
Description of problem: It is not possible to either see if a hostgroup holds a root password or to clear a root password. I have come several times in a situation where people could not log in using the root password and then it is next to impossible to troubleshoot this problem because it is not clear nor known what host groups hold root passwords.	
Version-Release number of selected component (if applicable):	
How reproducible:	
Steps to Reproduce: 1. Set a root password on a hostgroup 2. Try to determine from the UI is a root password is set on the hostgroup 3. Try to clear the root password in the UI	
Actual results: Not possible to detect if a root password is present on a hostgroup Not possible to clear a root password on a hostgroup	
Expected results: Possibility to detect if a root password is present on a hostgroup Possibility to clear a root password on a hostgroup
