Pull request:	
Description Cloned from https://bugzilla.redhat.com/show_bug.cgi?id=1192855 Description of problem: Going to Administer > Roles > Add permission > picking a resource type, you can select something called "Operatingsystem". All of the other resource types use spaces, but this one is combined into one word. Version-Release number of selected component (if applicable): 6.0.6
