

Foreman - Bug #9438

Roles > 'Add permission' brings you to a page titled 'New Filter'

02/18/2015 04:05 PM - Bryan Kearney

Status: Duplicate	
Priority: Normal

Description Cloned from https://bugzilla.redhat.com/show_bug.cgi?id=1192852 Description of problem: If you go to Administer > Roles > click the split button to get to 'Add permission', you're actually taken to a page called New Filter, where you pick a permission to add. What are we filtering? I was expecting something more like 'Add Permission' or 'New Permission'. Seeing filter here is a bit confusing. Version-Release number of selected component (if applicable): 6.0.6
