

## Foreman - Bug #947

### Foreman UI doesn't report omapi\_key error properly

05/26/2011 11:57 AM - Marcello de Sousa

<b>Pull request:</b>	
<b>Description</b>	
If the omapi_key is incorrect (I forced an incorrect key) Foreman's interface is not reporting the error. In the proxy.log (in debug mode) I can see the error:	
<pre>(...) E, [2011-05-03T17:51:57.835019 #10819] ERROR -- : Omshell failed: &gt; &gt; obj: &lt;null&gt; , &gt; obj: host , &gt; obj: host , hardware-address = 00:0c:29:38:71:62 , &gt; can't open object: connection reset by peer , obj: host , hardware-address = 00:0c:29:38:71:62 , &gt; can't destroy object: not connected , obj: host , hardware-address = 00:0c:29:38:71:62 , &gt; E, [2011-05-03T17:51:57.835393 #10819] ERROR -- : Failed to remove DHCP reservation for =&gt; 192.16 8.115.156 / 00:0c:29:38:71:62: No response from DHCP</pre>

### History

#### #1 - 11/08/2011 01:47 PM - Ohad Levy

- Target version changed from 0.3 to 1.0

#### #2 - 11/23/2011 06:50 AM - Mikael Fridh

Looks similar to this pull request:

<https://github.com/theforeman/smart-proxy/pull/9>

Basically, need to regex match some more of the omshell errors.

#### #3 - 07/18/2012 03:42 AM - Ohad Levy

- Target version deleted (1.0)

#### #4 - 03/15/2016 03:47 AM - Ohad Levy

- Description updated

- Assignee set to Anonymous

Dmitri - is this still correct after the refactoring ?

**#5 - 07/23/2021 10:43 AM - Lukas Zapletal**

This is how it looks like when a key is not valid:

```
$ omshell
> key fldskjfdslkj dGVzdAo=
> server localhost
> connect
dhcpctl_connect: no more
```

We should catch this error.

**#6 - 07/29/2021 07:11 AM - Anna Vítová**

- Assignee changed from Anonymous to Anna Vítová

**#7 - 08/03/2021 09:37 AM - Lukas Zapletal**

- Project changed from Smart Proxy to Foreman

- Category changed from DHCP to DHCP

- Triaged changed from No to Yes

This appears to be correct on the proxy and needs to be fixed in Foreman core.

**#8 - 09/08/2021 08:30 AM - Anna Vítová**

- Assignee deleted (Anna Vítová)
