Description

There is an 'internal' user that needs to be given an email address that is an alias. The alias provided to me has a length of 80.

Users cannot have an email address longer than 60 characters in version 1.7.2.

Can the length restriction be increased or removed?

Revision b6ebaea1 - 04/18/2016 07:37 AM - Daniel Lobato Garcia

Fixes #9584 - User email address length can be longer than 60

As far as I know, there's no need for this artificial limitation.
