

Foreman - Bug #9591

Override puppet configuration on host level does not work if specified on host group

03/01/2015 06:26 AM - Shimon Shtein

Status:	Closed	Fixed in Releases: Found in Releases: Red Hat JIRA:
Priority:	Normal	
Assignee:	Shimon Shtein	
Category:	Host creation	
Target version:	1.10.0	
Difficulty:		
Triaged:		
Bugzilla link:	1193812	
Pull request:	https://github.com/foreman/foreman/pull/2230	
Description		
Cloned from https://bugzilla.redhat.com/show_bug.cgi?id=1193812		
Description of problem: When editing a host it's not possible to override puppet ca and puppetmaster if the hostgroup specifies these.		
Version-Release number of selected component (if applicable): 6.0.7		
How reproducible: Every time		
Steps to Reproduce: 1. Create a host group that specifies puppet ca and puppetmaster 2. Assign a host to that host group 3. Edit the host and try remove puppet ca and puppetmaster, click submit 4. The Puppet CA and puppetmaster values are back		
Actual results: The values are still set.		
Expected results: It should be possible to override these values on host level.		
Additional info: Assigning the host to another host group that does not specify puppet ca or puppetmaster works as expected.

Looks like an incomplete fix in [#6369](#), which only works on initial host creation, not editing.
