

Foreman - Bug #960

User without admin rights is not able to delete reports

06/06/2011 04:32 PM - Marcello de Sousa

Status: Resolved	
Priority: Normal

Category: Users, Roles and Permissions	
Target version:	
Difficulty:	Fixed in Releases:
Triaged:	Found in Releases:
Bugzilla link:	Red Hat JIRA:
Pull request:	
Description	
<p>A user with rights to "Edit Host" is able to delete the host but doesn't seem to have rights to delete the reports ... Deleting a host with that user will slightly break the DB giving you a 500 when you generate reports with the "orphan" host ID.</p> <p>PS.: I've tested this with the latest stable (0.2) and noticed the "last login" info for the user without admin rights is also not updated.</p> <p>PS2.: "Nice to have" (not a "must"): It would be nicer if foreman would not crash with the orphan ID, but inform you about that (at the error msg or at the specific report "row" self).</p>

can you please see if the following patch solves your problem?

regarding the other topics, please open a bug for each issue... thanks!

- Status changed from New to Feedback

- Assignee changed from Ohad Levy to Marcello de Sousa

did you have time to try the above patch?

#4 - 07/24/2011 03:33 PM - Marcello de Sousa

Just tested it and it works!

#5 - 07/24/2011 04:04 PM - Marcello de Sousa

Sorry. I think I took some conclusions a bit too fast... I just got an error. Will test it more extensively and let you know.

#6 - 08/09/2011 05:44 AM - Marcello de Sousa

I could not get this to work. Is it possible for someone else to test it ?

#7 - 08/14/2011 10:34 AM - Ohad Levy

- Subject changed from *User without admin rights is not able to delete reports* to *User without admin rights is not able to delete reports*

#8 - 09/05/2011 06:33 PM - Marcello de Sousa

- Assignee changed from *Marcello de Sousa* to *Ohad Levy*

I've tested this patch above again with the latest develop and I can confirm it is not working.

When I delete a host without admin rights, the host is removed from the DB but the reports stay there with "orphan" host IDs and it breaks the UI reports screen with the error :

```
host_reports_url failed to generate from {:action=>"index", :controller=>"reports"} - you may have ambiguous routes, or you may need to supply additional parameters for this route. content_url has the following required parameters: ["hosts", :host_id, "reports"] - are they all satisfied? ActionView::TemplateError , (eval):17:in `host_reports_path'
app/views/reports/_list.html.erb:19
app/views/reports/_list.html.erb:16:in `each'
app/views/reports/_list.html.erb:16
app/views/reports/index.html.erb:3
```

#9 - 09/27/2011 02:12 PM - Ohad Levy

- Target version deleted (0.4)

#10 - 01/03/2013 11:52 AM - Benjamin Papillon

- Status changed from *Feedback* to *Assigned*

#11 - 12/16/2013 10:47 AM - Anonymous

- Description updated

I think this is fixed. When the destroy_reports permission is assigned, users can destroy/delete hosts without problems in 1.3.1.

#12 - 03/31/2014 08:50 AM - Dominic Cleal

- Status changed from *Assigned* to *Feedback*

- Assignee deleted (*Ohad Levy*)

Verified in Foreman 1.5 too, associated reports are getting destroyed even when the user only has the destroy_hosts permission and no report permissions.
