Foreman - Bug #9614

Integration tests fail randomly with Capybara::Poltergeist::TimeoutError

03/03/2015 06:28 AM - Tomer Brisker

Status:	Closed

Pull request:			

Description

Integration tests on Jenkins sometimes fail randomly due to timeouts.

Sample backtrace:

```
Error Message

Timed out waiting for response to {"name":"visit","args":["http://127.0.0.1:42441/"]}. It's possib
le that this happened because something took a very long time (for example a page load was slow).
If so, setting the Poltergeist :timeout option to a higher value will help (see the docs for detai
ls). If increasing the timeout does not help, this is probably a bug in Poltergeist – please repor
t it to the issue tracker.
Stacktrace

Timed out waiting for response to {"name":"visit","args":["http://127.0.0.1:42441/"]}. It's possib
le that this happened because something took a very long time (for example a page load was slow).
If so, setting the Poltergeist :timeout option to a higher value will help (see the docs for detai
ls). If increasing the timeout does not help, this is probably a bug in Poltergeist – please repor
t it to the issue tracker. (Capybara::Poltergeist::TimeoutError)
