Description

Added the bookmark "facts.architecture = x86_64". After this bookmark was added, I'm unable to view any bookmarks, instead the web server returns an HTTP 500. Here is a snippet from the production.log.

1. Begin Snip #####

Rendering template within layouts/application
Rendering bookmarks/index

ActionView::TemplateError (edit_bookmark_url failed to generate from {:action=>"edit", :controller=>"bookmarks", :id=>"facts.architecture"}, expected: {:action=>"edit", :controller=>"bookmarks"}, diff: {:id=>"facts.architecture"}) on line #14 of app/views/bookmarks/index.html.erb:

```
11: </tr>
12: <% for bookmark in @bookmarks >
13:   <tr class="<= cycle("even", "odd") ->">
14:     <td><= link_to_if_authorized(h(bookmark.name), hash_for_edit_bookmark_path(:id => bookmark.name)) ></td>
15:     <td><=h bookmark.query ></td>
16:     <td><=h bookmark.controller ></td>
17:     <td><=h bookmark.public %></td>
```

```

fixes #967 - bookmark fails if its name includes a "."

History

#1 - 06/08/2011 02:04 PM - Ohad Levy

- Category set to Rails
- Assignee set to Ohad Levy
- Target version set to 0.4

I can confirm it, this is caused by a failure to extract the bookmark id since it has space in its name.

nevertheless, the bookmark should be working already (you can see it at the host dropdown).

I'll send a patch tomorrow.

#2 - 06/09/2011 02:02 AM - Ohad Levy

- Subject changed from After adding bookmark, bookmarks page fails to load to bookmark fails if its name includes a "."

#3 - 06/09/2011 02:09 AM - Ohad Levy

- Status changed from New to Closed
- % Done changed from 0 to 100
