Pull request:	https://github.com/theforeman/smart-proxy/pull/264		

Description

Rubyipmi 0.9.0 has a new feature to either log all impi commands or pass in a logger object for rubyipmi to send logs to. This would be a great addition to troubleshooting errors with rubyipmi.

Associated revisions

Revision 369793b5 - 03/20/2015 07:15 AM - Corey Osman

Fixes #9709 - allow the bmc module to log all impi calls

- updates rubyipmi to use version 0.9.0 or later as its now required

Revision 0d70f58c - 03/20/2015 07:15 AM - Corey Osman

Fixes #9709 - allow the bmc module to log all impi calls

- previously when IPMI errors occured at the Rubyipmi or CLI level there was no good way to troubleshoot the issue. With this addition we can now watch an erorrs Rubyipmi spits out by sending Rubyipmi a custom logger.
