

Foreman - Support #98

Turn \$settings into a Ruby object

11/27/2009 04:49 PM - Martin Englund

Status: Closed	
Priority: Normal	
Assignee: Martin Englund	
Category:	
Target version:	
Triaged:	Found in Releases:
Fixed in Releases:	
Description	
The \$settings should be turned in to a Settings object with defaults that extracts from the clutter in the current files, e.g.	
<pre>\$settings[:puppet_server] "puppet"</pre>
