

Installer - Feature #9822

Support Puppet 4 / future parser across all modules

03/19/2015 04:51 AM - Dominic Cleal

Status: Closed	
Priority: Normal	
Assignee:	
Category: Foreman modules	
Target version: 1.11.0	
Difficulty:	Fixed in Releases:
Triaged:	Found in Releases:
Bugzilla link:	Red Hat JIRA:
Pull request:	
Description	
Tracker for modules to support Puppet 4, with its "future" parser, strict variables etc.	
https://github.com/foreman/foreman-installer-modulesync/pull/11 tracks our own modules for the future parser.	
Strict variables have yet to be tested.	
External modules also need checking.

<https://github.com/foreman/foreman-installer-modulesync/pull/13> tracks running tests on puppet 4.

<https://github.com/foreman/puppet-puppet/pull/282> should help a lot as well.

- Blocks Tracker #8447: Puppet 4 support added

#7 - 12/03/2015 02:53 AM - Dominic Cleal

- Status changed from New to Closed

- % Done changed from 0 to 100

- translation missing: en.field_release set to 71

Yep, all master branches for our modules should now support the Puppet 4 parser.
