

Foreman - Bug #9911

Api for available_clusters on vmware does not return expected value.

03/26/2015 12:25 PM - Mike McCune

Status: Duplicate	
Priority: Normal	
Assignee:	
Category: Compute resources - VMware	
Target version:	
Difficulty:	Fixed in Releases:
Triaged:	Found in Releases: 1.5.0
Bugzilla link: 1206243	Red Hat JIRA:
Pull request:	
Description	
Cloned from https://bugzilla.redhat.com/show_bug.cgi?id=1206243	
Description of problem:	
I have a VMware cluster with the following setup	
Datacentername = nyc Clustername = nyccluster	
I have 2 hosts in the cluster and I am able to provision to it via sat6.	
When I try to query the vmware cluster information via api	
https://sat6.local.domb.com/api/v2/compute_resources/4/available_clusters	
I get back	
<pre>{ "total": 4, "subtotal": 4, "page": 1, "per_page": 20, "search": null, "sort": { "by": null, "order": null }, "results": [{}] }</pre>	
This only happens with vmware. If I choose rhev it works	
https://sat6.local.domb.com/api/v2/compute_resources/3/available_clusters	
<pre>{ "total": 4, "subtotal": 4, "page": 1, "per_page": 20, "search": null, "sort": { "by": null, "order": null }, "results": [{"name": "Default", "id": "00000001-0001-0001-0001-00000000034c"}] }</pre>	
Version-Release number of selected component (if applicable): 6.0.8	

How reproducible:

Steps to Reproduce:

1. You need to have a vmware cluster :-)
2. Query the api of sat6

https://SAT6SERVER/api/v2/compute_resources/3/available_clusters

Actual results:

results hash is empty

Expected results:

results hash should contain vmware cluster

Additional info:

History

#1 - 03/26/2015 12:32 PM - Dominic Cleal

- Category set to Compute resources - VMware

- Status changed from New to Need more information

Does the UI list available clusters when creating a host?

Please re-test on a newer release (1.8 or 1.9), this is very old code (1.5).

#2 - 03/26/2015 12:43 PM - Laurent Domb

- File vmwarecluster.png added

Yes it does. Provisioning is not affected in any way. Its just the api call which somehow does not return the expected results hash

#3 - 02/29/2016 08:25 AM - Tomer Brisker

- Status changed from Need more information to Duplicate

This was already fixed in [#11345](#).
