

Foreman - Bug #9987

Deleting a report resets the search filter

04/01/2015 11:29 AM - Jérôme Vizcaino

Status: New	
Priority: Normal	
Assignee:	
Category: Web Interface	
Target version:	
Difficulty:	Fixed in Releases:
Triaged:	Found in Releases: 1.7.4
Bugzilla link:	Red Hat JIRA:
Pull request:	
Description	
How to reproduce :	
<ul style="list-style-type: none">• select a host• go to the page where it shows all of its reports• delete one report (using the delete button on the right)	
The page you end up to is the reports page, only this time the search filter is gone and you get to see all the reports. I would expect the search filter to be maintained in order to, for example, clear some of the host's reports.

I think this is related to [#9469](#) but I don't know if the patch fixes this problem also.
